

ADMA Biologics to Present at the J.P. Morgan Healthcare Conference on January 12, 2026

January 5, 2026 12:00 PM EST

RAMSEY, N.J. and BOCA RATON, Fla., Jan. 05, 2026 (GLOBE NEWSWIRE) -- ADMA Biologics, Inc. (Nasdaq: ADMA) ("ADMA" or the "Company"), a U.S.-based, end-to-end commercial biopharmaceutical company dedicated to manufacturing, marketing, and developing specialty biologics, today announced that Adam Grossman, President and Chief Executive Officer, will participate in a podium presentation at the J.P. Morgan Healthcare Conference on Monday, January 12, 2026, at 9:45 a.m. PT.

A live audio webcast of the call will be available under "Events & Webcasts" in the investor section of the Company's website, <https://ir.admabiologics.com/events-webcasts>. An archived webcast will be available on the Company's website after the event.

About ADMA Biologics, Inc. (ADMA)

ADMA Biologics is a U.S.-based, end-to-end commercial biopharmaceutical company dedicated to manufacturing, marketing and developing specialty biologics for the treatment of immunodeficient patients at risk for infection and others at risk for certain infectious diseases. ADMA currently manufactures and markets three United States Food and Drug Administration (FDA)-approved plasma-derived biologics for the treatment of immune deficiencies and the prevention of certain infectious diseases: ASCENIV™ (immune globulin intravenous, human – sIra 10% liquid) for the treatment of primary humoral immunodeficiency (PI); BIVIGAM® (immune globulin intravenous, human) for the treatment of PI; and NABI-HB® (hepatitis B immune globulin, human) to provide enhanced immunity against the hepatitis B virus. Additionally, ADMA is developing SG-001, a pre-clinical, investigative hyperimmune globulin targeting *S. pneumonia*. ADMA manufactures its immune globulin products at its FDA-licensed plasma fractionation and purification facility located in Boca Raton, Florida. Through its ADMA BioCenters subsidiary, ADMA also operates as an FDA-approved source plasma collector in the U.S., which provides its blood plasma for the manufacture of its products. ADMA's mission is to manufacture, market and develop specialty plasma-derived, human immune globulins targeted to niche patient populations for the treatment and prevention of certain infectious diseases and management of immune compromised patient populations who suffer from an underlying immune deficiency, or who may be immune compromised for other medical reasons. ADMA holds numerous U.S. and foreign patents related to and encompassing various aspects of its products and product candidates. For more information, please visit www.admabiologics.com.
